

Giovanni Moroni is Professor in Manufacturing Technology and Systems at Politecnico di Milano, Mechanical Engineering Department, where he coordinates the Manufacturing and Production Systems research line and is member of the Scientific Committee. He is Associate Member of CIRP (The International Academy for Production Engineering), member of AITeM (Italian Association for Manufacturing), and member of the Editorial Board of the Nanomanufacturing and Metrology (Springer journal). Recently, he has been National High-end Foreign Experts at School of Mechanical Engineering, Tongji University, Shanghai, China [Jan. 2015 – Dec. 2017]. Before joining the Politecnico di Milano, he carried out research experiences at the Programmable Automation Laboratory of the Institute for Robotics and Intelligent System, University of Southern California, Los Angeles, USA (1993-95), under the supervision of Prof. A.A.G. Requicha, and at the Industrial Engineering Department of the Università degli Studi di Cassino e del Lazio Meridionale (1995-1999)
